

## DIARY

CFS username: hcn6

Last name: Happiness

First name: Nwosu

---

Meeting date:

Date: 9-10-2019

### **Revised plan from previous meeting:**

I have made changes to the background of the study and created a project map in form of a gantt chart, changes have been pushed to SVN

---

### **Work plan until next meeting: (for the next two weeks)**

- Initialize application codebase with bare minimum config
- Create Entity relationship diagram for the project
- Create a user workflow document for the application
- Create a project monitoring document to track the project in five columns: TODO, IN-PROGRESS, IN-REVIEW, DONE and DEPLOYED to help track development tasks

---

**Comments from supervisor** (optional – filled by the student after meeting)
