

## DIARY

CFS username: hcn6

Last name: Happiness

First name: Nwosu

---

Meeting date:

Date: 24-10-2019

### **Revised plan from previous meeting:**

I have created a draft of the questionnaire to help users express their preference for the city tour, I still have some questions to be developed, please look through and provide feedback.

I have mapped out the models for the system and the relationship between entities, the ERD and system architecture diagrams will be developed and uploaded this week.

---

### **Work plan until next meeting: (for the next two weeks)**

- Entity- relationship and architecture diagram
- table of content for thesis/interim report
- application backend functionality: user sign up, sign-in, sign-out, profile view and update
- Database models and migration files

---

**Comments from supervisor** (optional – filled by the student after meeting)
