DIARY

CFS username: hcn6

Last name: Happiness   First name: Nwosu

Meeting date:

Revised plan from previous meeting:

Based on our last email exchange, I have been able to write up the project introductory pages.

It includes the background, motivations, aim and objects and scope of the project.

Kindly review and let me know your thoughts/feedback and areas of improvement.

Work plan until next meeting:

This week, I will focus on making research on open/free APIs that can provide the kind of data the application needs to meet its objectives.

I will share my findings with you by Friday, what APIs, how the project might utilize them, and also get your feedback on this.

Comments from supervisor (optional – filled by the student after meeting)

Module convenor: Dimitrova, Rayna (Dr.)
